**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We live in a very rural area. We have two internet providers here and both are local providers. There is not much interest in an area like ours because of the lack of people and money. Most residents are stretched money-wise and cannot afford more charges than they have already. Because of being so rural, we all rely on the internet for news, stock market activity, being able to order all sorts of goods and for a resource for our children. Many of us live miles from town and the library and don't get there real often or regularly. The internet is a big part of our lives-from finding out when a package will be delivered, to making doctor appointments, to keep in touch with friends and family.

Sincerely,

Janet Logan
